PROFILE

Nils Finne, AIA, is a principal of the award-winning FINNE Architects, recognized as one of the best Seattle design firms by several local magazines, including *NW Home + Garden* and *Seattle Homes & Lifestyles*. In addition to architecture, Nils has been involved in the design and fabrication of more than 70 pieces of furniture, lighting and hardware, which are produced and marketed separately. Prior to founding FINNE Architects in 1990, Nils was a Senior Associate at Richard Meier and Partners, and served as Project Architect for the \$350 million Getty Museum, part of the \$1 billion Getty Center complex in Los Angeles. Nils has been practicing sustainable design for over 25 years, and is a member of the U.S. Green Building Council.
